Reductions for Siblings

If several children from the same family attend nursery, the fee for the second child will be reduced by 10% and for the third child by 5%.

Calculation of Monthly Fee

In order to calculate the average monthly total fee, the parental fee settled in the contract will be multiplied by 19.6 days (236 days of operation : 12 months = 19.6) and the percentage of days the child attends (example: CHF 80.00 times 19.6 days times 60% equals a monthly rate of CHF 926.40). This monthly rate will remain unchanged in the event of absences. Additional days will result in a surcharge according to the parental fee settled in the contract.
